

Magic Bubble Theory

I got this magic bubble theory, nothing's gonna happen to me

Cause I'm protected by a magic bubble

I got this magic bubble theory, nothing's gonna happen to me

Cause I'm protected by a magic bubble

Little Betty Lou, it was schizophrenia that did it for you

Cut you off from life while you were still in high school

Something inside your brain that burned it from inside

Nothing anyone could do, could make it turn out right

I got this magic bubble theory, nothing's gonna happen to me

Cause I'm protected by a magic bubble

I got this magic bubble theory, nothing's gonna happen to me

Cause I'm protected by a magic bubble

In another time, in another place, there may have been a world

That would be a world where you escaped

From the madness and the doors that all got closed

Just go away now, you're not welcome anymore
