

Space Colony

**Maybe this whole civilization thing is like a game
Where you have to get off your home planet in order to survive**

**Welcome to Disney Planet
Where everything is either absolutely good or absolutely evil
So which do you choose, Disney good or Disney evil?
You chose an invalid option**

**Space Colony, I need a new reality
Space Colony, some kind of different destiny
Space Colony, it seems like that's the place for me
Space Colony, I need a change of scenery**

**Feels like this whole world is one big dysfunctional family
We got all these problems we can't solve cause everybody disagrees
And shouting louder doesn't make you right
But nothing could ever make you change your mind
It's just a waste of energy to fight, I just want to leave**

**Welcome to Disney Planet
Where everything is either absolutely good or absolutely evil
So which do you choose, Disney good or Disney evil?
You chose an invalid option**

**Space Colony, I need a new reality
Space Colony, some kind of different destiny
Space Colony, it seems like that's the place for me
Space Colony, I need a change of scenery
Space Colony**
